

# How to Replace Pole Vault Weight Label

For Pacer, Mystic, Skypole and Lady Rockets:

<https://www.gillathletics.com/pvlabel.aspx>

It is an online process that you will need the model number and serial number that is embedded in the pole (bar code).

For Spirit:

<http://www.ucsspirit.com/vaulting-poles/news-details.cfm/news/New-NFHS-Rules-Requirement>

You will need to take a picture of the model and reference numbers (3 lines). These are engraved into each pole.

For Altius:

<http://www.altiuspoles.com/contact.shtml>

They do not list any way to order new labels. Above link is to the contact page. In the past you mailed a self-addressed envelope to PO Box 1168, Jacksonville, TX 75766. You would include the pole serial number, length, weight and flex number.
